## SUMMARY

Aspiring Software Developer with experience in Java Full Stack Development, web automation, and modern software engineering practices. Proficient in Spring Boot, React.js, MySQL, and API development, with a strong interest in creating efficient and scalable applications.

## EDUCATION

### Saveetha Engineering College

Bachelor of Engineering in Computer Science CGPA: 8.4/10

Chennai, TN

Sep. 2024 – 2028

### Agurchand Manmull Jain School

CBSE

Chennai, TN

2012 – May 2024

## EXPERIENCE

### Nanobi Analytics

Software Development Intern

June 2025 – Aug. 2025

Remote

- Developed a Web Scraping Automation System using Java and Selenium to extract customer reviews and feedback from web platforms for data collection and analysis.
- Contributed to the development of an LLM-powered PDF Summarization System capable of generating concise summaries from research documents and extracting key figures and tables for enhanced analysis.
- Performed testing and validation of analytics dashboards, identifying functional and non-functional features and documenting findings to improve platform reliability and usability.

### Start Genie

Frontend Developer

May 2025 – June 2025

Remote

- Developed responsive and user-friendly web interfaces using HTML, CSS, and JavaScript, ensuring cross-browser compatibility.
- Collaborated with design and backend teams to implement intuitive UI/UX features and interactive components.
- Optimized website performance and accessibility, improving load times and overall user experience.

## PROJECTS

### MediAssist AI | Java, Spring Boot, React.js, MySQL

- Developed a full-stack healthcare platform using Java, Spring Boot, React.js, and MySQL with role-based access for Patients, Doctors, and Administrators.
- Implemented LLM-powered healthcare assistance, reducing symptom information retrieval time by approximately 43 percent.
- Implemented secure authentication and authorization using JWT and Spring Security.

### E-Commerce Store | Java, Spring Boot, React.js, MySQL

- Developed a full-stack e-commerce web application using Java, Spring Boot, React.js, and MySQL.
- Implemented JWT-based authentication and role-based access control.
- Built RESTful APIs using Spring Boot and integrated them with React frontend.

## ACHIEVEMENTS

### Second Prize – Spidey Bot Hackathon

Secured Second Prize in the Spidey Bot Hackathon conducted at Sairam Engineering College, demonstrating strong problem-solving, teamwork, and technical innovation skills.

## TECHNICAL SKILLS

**Languages:** Java, JavaScript, SQL, HTML5, CSS3, C

**Frameworks:** Spring Boot, Spring MVC, Spring Security, React.js

**Libraries and Technologies:** Hibernate, JPA, JWT, LangChain4j, Bootstrap, Axios

**Developer Tools:** Git, GitHub, Maven, Postman, IntelliJ IDEA, VS Code, MySQL Workbench

**Relevant Coursework:** OOPS, DSA, DBMS, OS, Microservices

**Certifications:** Oracle Java Global Certification | Java Programming for Beginners-Coursera
